ITOG

In general, following the results of the calendar year, we want to note that practically all the tasks set before the agencies have been fulfilled. In addition, it is necessary to remain on these incorrect and some of the issues in the preparation of textbooks and methodological allowances, Especially due to the significant activation of participation and speeches of the faculty and students of the faculty for scientific and practical and scientific and theorical conferences, it is necessary to improve the research work of the cafes. quality level.

As a matter of fact, the number of pAK publications was reduced.

At the same time, the analysis of the work of the cafeteria, which is the subject of scientific activity, About 50% of these categories are systematically engaged in this work (Naribai R.Zh., old graduates N. Tulegenovich and E.E. Ospankulov, Dakubakinov B.B., Tastanov A.Zh.). At the same time, the unprofitable participation in the study is the primary functional task of the teacher. At the same time, up to 20% of the time is spent in the service. The effectiveness of the science work of the faculty of the faculty is in this direction. There are a number of employees who are engaged in scientific work (Islyamov E.E., Ospankulov B.B., Dzakubakinov B.B., Tulegenovich N., Tastanov A.Zh., Kunai S.).

The analysis of the state of research and development work in the department of the institute of art, culture and sport allowed to determine the next priorities of research activity for 2022.

1. Development of fundamental research in the Armistice, other soldiers and service formations of the Republic of Kazakhstan, in order to study the variety of activities and processes in the field of preparing young people for the service, providing in-water theoretic information on the methodology of premeditated disciplines. With this purpose, the specifications of 6B01401 – Initial training, 6B01408 – Initial training and development of basic textbooks on physical education were developed".

2. Participate in the development and examination of projects of normative documents on specialization of the Initial training of higher educational institutions of the Republic of Kazakhstan.

3. The implementation of applied scientific research in the interests of the youth and also the research aimed at improving the content of specialization of training in the activity of the department.

4. Development of educational and methodological documents for the preparation of highly skilled teaching staff (curriculum, curriculum, basic textbooks, educational and methodological complexes) in the interest of ensuring the process of preparing skilled professionals.

5. Attraction of students to research work, the development of all-round personal potential, the formation of the personal lyceum, stimulation of research and teaching activities.
