The yearly reports on research work on physical culture and sports

1. Project activity of PTS:

On the café of the Institute of Arts, Culture and Sports of the Institute of Physical Culture and Sports of the Institute of Arts, In the department of culture and sport, the faculty of teaching staff was added and amended, the following cafeteria was made, the oldest patron of Kokebayev Rysgul Parbekovna.

The total number of PPS in the cafete-58, 54 faculty and teaching staff were approved on staff. Among them are professorial teaching staff-2, associate professor-4, associate professor-5, old teacher - 23, teaching staff - 14 and master of volleyball sport of the USSR - 1, the interest rate of professor - the teaching staff of the cafeteria - 10.44%.

In general, the department is implementing a plan of research and research work (NIR). It is possible to point out that in order to assess the issues solved by the scientific and research work of the cafes, the show is on its way to its way of looking for its way. This is due to the fact that in order to increase the level of teaching in the cafeteria, information on the preparation of teaching allowances and methodological instructions and participation in research projects is being implemented. Each department carries out research and research work with students of PPS. About the implementation of NIRS can be transferred to the program of practical and research conference of students.

In general, the cafes have the potential to be skilled and meet the requirements for personnel.

The department has been focused on the potential of the academic and inventive. The department considers the relevant base for research and development, a wide range of modern ways and applications, a variety of research tools, and research workers from the number of undergraduates and doctors.

The research work is held in the cafeteria and is carried out in accordance with the requirements of the university's administrative documents.

The theme of the research is the profile and educational program of the cafeteria, which focuses on the needs of the educational process and ensures the further development of art, pedagogical and art education.

The main efforts of the research and research work of the faculty are aimed at improving the efficiency and quality of the teaching process.

Research and research work of the public cafes:

1. Scientist-theoretic, methodological;
2. The study-metodic;
3. Practical and practical implementation.

Scientific-methodicalIssues of provision of teachers and methodological lyceums on compulsory, Professional disciplines are prepared for scientific and methodological specialization, as well as in self-discipline, determine the way to solve it and increase it to responsible teachers for each specialty.

Scientific and practical conferences, Scientific and research work with students, the protection of diplomas, participation in fiction exhibitions, preparation of educational and methodological allowances, training seminars and others.

A big part of the research areas of PPS, Masters of physical education and sports of KazNPU Abay, Institute of Arts, Culture and Sports are based on modern trends, technologies and technologies of world and domestic art education, cultural development and art in general.

The department of physical culture and sports in order to improve financial and economic activities plans to organizing training courses on the basis of the curriculum for teachers.

Within the framework of research and research themes on the university's policy, research and methodological, research and research directions are being implemented.

The status of the faculty, in particular, focuses on not only practical, but also thematic scientific research, the policy of the department is based on the process of domination in the process of interactive methods, The next goal is to improve the teaching process in the moderator of the educational process.These courses have passed practical courses on new technologies that can be used in the educational process.

2. Nanometric indicators of PPS:

In 2023, the research and research work of the department "Physical culture and sport" resulted in the results of the research activities of the members of the department for research purposes. The department "physical culture and sport", which is engaged in practical emphasis, currently has its own theoretic research potential.

Following the results of 2023, the following results were summed up:

- 0-half of the author's evidence, 0 - from the patena;
- in the near next foreign-published article 10;
- in the countries of the far abroad published - 5 articles, in other journals of the Republic of Kazakhstan - 54, at scientific conferences -13 articles;
- 5 articles in the journals of the FGBOU VPO "SOSH RK";
-In the journals with impact - factor (Skopus) - article published article 1;

The number of minted monographs, textbooks and textbooks is methodological benefits-0.

In general, it is worth noting that practically all tasks, which are set by the staff of the cafes, are carried out.

3. The line of international and republican research cooperation:

In 2023, the training of 34 professors and teachers took place in the physical culture and sports cafety. It is obvious that the training courses are aimed at improving the sphere of education for every teacher and necessary for the process of learning the necessary skills. In addition, from 14.11.2022 to 12.2022 Professor Stanchen Dala Maria from the University of Kleipede from Lithuania held lectures on the melody. The faculty staff of the cafes was lectured in the volume of 80 p.m. and received

certificates. The research work", conducted by professor, practical training on the type of "Phenomenology", was held at a very high methodological level.

4. Research activity of a student, undergraduate, doctoral student:

Students of the department of physical culture and sports during the diploma work with foreign organizations, in particular, educational institutions and sports halls, use necessary materials when preparing diplomas. Thus, information technologies in modern education, in the online mode, are used by educational foundations. Articles, scientific works are held seminars with scientific leaders and guides, organized cafes.

The café of physical culture and sports is ready for masters, bachelors. Students and undergraduates are attracted to the research work, focus on which subjects are engaged. Each year, 78 scientific and practical conferences of students and undergraduates were prepared 44 reports and diplomas were awarded 1-2-3 degree. The work of the students was presented at the republican competition.

On November 17-18, 2023, 78 scientific conferences and organized exhibitions of students and undergraduates were held in the cafete. The report on physical culture and sports, Pedagogy and Psychology, Medical and Biological Sciences, Andrey Dzhaksybekov, was held with the participation of chairmen and members of the Commission. In the specialty " Physical culture and sport "(bachelor's degree) conducted 18 report, according to the direction of SMEs - 2 report, according to medical-biology-2 report, and in the magistracy - 1 report.

The list of the athletes on physical education - sports section was brought to the list:

Scientific conference on bachelor's degree: 1st place: **Toleukhan Aizat** » sport doping: classification and influence on persons " 1st course, 6v01404- Physical culture and sport. National Leader: **Azerbaijan E. N.** - Master, Preacher

2th *places:* 1. **«Adilov Madiyar**» the importance of using JASPER methods for children with autism in Kazakhstan "3 rd course, 6B01404-Physical culture and sports scientific leader: **Yeranova G.S.**Master, Preacher

2. **Zhalgasbaeva Danara**", thoughts of Kazakh poets and poems about the patriotic education "4 th course, 6v01404-Physical culture and sports head: **Dzhanabayeva R.A.**- D.P.N., professor

3rd *place:* 1. **Stupina Svetlana Dmitrievna** "Trauma in Modern Football" undergraduate of 1 course, r/o 6B01404-Physical culture and sport Academic head: **Balgimbekov Sh.A.** - D.M.N., Professor

2. **Seytai Asemay**, **Makhanbetiyarova Balgul"**, specifics of national sports in the school program "3 courses, 6v01404-Physical culture and sport, head of the university: **Ganibayev N.S.** - M.P. n.st. preacher

3. **Lavina Kulyai**, "The importance of the role of games in adaptive plateau, applied to children with autism" 3 courses, 6B01404-Physical culture and sport.

Scientific Head: **Yeranova G.S.**Master, Preacher

Internships of students are held in special production, teaching places, approved special contracts. Students' colleges, represented at the conference, are being issued.

Completion

In general, the results of the calendar year, it is worth noting that practically all the tasks laid before the cafeteria were fulfilled. With modern tools, opportunities to use modern means are available at an average level. In addition, the provision of modern equipment was fully realized, for the foundations of art stores, printed master projects, computers and applications, the Internet, modern cars for shwey production. It is obvious that training students in the academic process will be able to improve production skills with the help of new techniques and technologies.

Extensive contacts with foreign universities and consideration of contracts concluded. Control over the holding of the cafeteria in line with the training course for the strengthening of the research potential of pps. Organized training courses are held in public, only pedagogical, psychological.
