1, Assessment of the status of the problem of the department's research work.

The research work of the Department of Physical Culture and Sports was organized and carried out in accordance with the requirements of normative legal acts regulating the sphere of this activity. The research work carried out in the department will ensure full compliance with the national policy in the field of education, science and innovative development.

The main tasks of the department: preparation of reporting documents (standards) for specialized accreditation of educational programs of the university in the specialties "6B01404 - Physical Culture and Sports" "6B01413 - Physical Culture and Sports - Primary Military Training"; faculty to solve the most pressing scientific, scientific, pedagogical and scientific and methodological tasks within the unified scientific problem of the university "Development of continuous pedagogical education" attracting students. New socio-economic conditions in Kazakhstan; participation in intermediate scientific activities of international and republican universities and the introduction of research and development results into the educational process.

During this period, the main objects of R&D used in the department are:

1, Participation in scientific and practical conferences of international, republican and higher educational institutions held in KazNUA. Abay, Almaty, other universities and organizations of the Republic of Kazakhstan, near and far abroad.

2, Preparation for publication of thesis of reports and reports for international and republican scientific and practical conferences, scientific articles for the collection of scientific papers, articles in the journal "KazNu-Khabarssy" named after Abai.

Preparation for the publication of educational and teaching aids for students.

In 2022, the number of employees of the department carried out research and development: 64 people, including: full-time workers - 46; additional service personnel:17; managers –1;

At the same time, among them 7 p.m.d. professors; 18 p.m., 24 senior teachers; Master teacher-14.

In our department, professors, teachers took part in 72 or more hours of advanced training courses. They are: Kokebaeva R. Tugelbaev E., Zhumagulov A., Kazakhbaeva G., Tutebayev K., Kaden N.

2, Relevance, innovation of research work, duplication of scientific topics

3, Innovation of research projects

4. Degree of commercialization of projects.

5, Conducting events on the image policy of the university.

In order to improve the university's image policy in 2022, the task of increasing the efficiency of scientific research has the following figures:

1) Scientific articles were published in various sources - 23 (in 2022 - 23), including:

- in magazines provided by Scopus - 6;
- in the journals submitted by the Universiade of the Republic of Kazakhstan - 3;
- in other journals of the Republic of Kazakhstan - 14

6. The use of equipment of national collective use laboratories and engineering laboratories is not carried out in the department.

7, Development of new technologies.

Technologies of training in the educational process and the development of research and development process essay by students of pED and department; project (research) activity; personality-oriented approach; IN-technologies; technologies for the development of critical thinking; interactive (game) technologies; actively works on the introduction of new technologies, such as monitoring, etc.

8, Conducting a course of lectures with leading foreign and domestic researchers of external scientific organizations.

Professor of association from St. Climent Okhridsky University in Sofia, Bulgaria, PhD Dr. Peletkova Irene 05.11.2022-04. In the period from 12.2022, he held lectures on the melody prepared by the head of physical culture and sports Kokebaeva R.S., and Peletkova Irene. The faculty of the department received a certificate of lectures in the amount of 80 hours, as well as lectures in bachelors, undergraduates, doctoral students. In addition, in order to improve his skills, from 01.12.2022 to 26.12.2022, the Department of Physical Culture and Sports of the Republic of Uzbekistan was trained within the framework of academic mobility of Z.U. Umarova, an associate professor of Kokan State Pedagogical University of Uzbekistan.

Participation of employees in scientific activities of external scientific organizations.

10, Organization of dialogue platforms with the participation of representatives of business, private sector and scientists

The department has no scientific and dialogue platforms. In addition, students can visit the university's official website and get acquainted with the results of research activities, activities http://www.kaznpu.kz science department.

11, Cooperation with scientific organizations, universities, including Nazarbayev University

Faculty of The Kazakh Academy of Sports and Tourism in 2022, Strengthening cooperation with the National Center for Scientific and Practical Physical Education of the Ministry of Education and Science of the Republic of Kazakhstan, Al-Farabi Kazakh National University, Nazarbayev University, Republican Specialized Boarding School-College of Olympic Reserve named after K. Akhmetov, Aktobe Regional State University named after K. Zhubanov developed business in the field of research. In addition, in order to develop research cooperation in the medical and biological direction of physical culture and sports, the department has been in contact with the Kazakh Academy of Nutrition, the National Center for Healthy Lifestyle Formation of the Ministry of Health of the Republic of Kazakhstan, the Institute of Human and Animal Physiology of the Ministry of Education and Science of the Republic of Kazakhstan, the Republican Anti-Doping Laboratory of Athletes.

12, Attract ingenuities as an expert in the selection of scientific and technical projects claiming prizes in the field of science and technology

2022 The Department of Education and Science was not involved in such examinations.

13, Cooperation with state, non-state, public and international organizations of foreign countries in the field of scientific research (UNESCO, ISESCO, NATO, SRDF, MNTC, INTAS, Somstech, SCO, OPP). –No.

14, Increasing the potential of scientific organizations by training employees at the country and abroad, including under the program "Bolashak"

15, Proportion of women performing research and development from the total number of researchers (%)

In 2022, out of the total number of researchers, the share of women performing research and development will be 25%.

16, Provision of modern equipment in the reporting year.

The department has interactive boards, personal computers for each teacher to perform educational, methodical and scientific tasks.

17, Use the potential of external scientific organizations in the preparation of diploma work of students, master's and doctoral dissertations.

Scientific and research work is the most effective for the development of scientific abilities of students, because it is one of the most important forms of the learning process.

All students of our department are engaged in research within the framework of physical education and sports. Research work of students is a mandatory, organic integral part of training at the university and is one of the main tasks of kazNUA, which is solved on the basis of the unity of educational and scientific processes.

18, Introduction of the results of r&D reports to the work of students, undergraduates and doctoral students

To strengthen the research work of the student, the deputy head of the department for research work together with the teachers developed instructions at

different levels, then introducing them into the learning process. The best prepared students will participate in various conferences, round tables, scientific seminars, Olympiads of the city, regional, republican and international levels.

19, Conducting the practice of doctoral students, undergraduates and students in external scientific organizations

20, Participation of doctoral students, undergraduates and students in scientific activities of external scientific organizations
