Reports on the initial training of the department of research and development

1. Project activity of PPS:

Share of PPS engaged in research work; The research work of the department of initial military training was organized and carried out in accordance with the requirements of normative legal acts, regulated by this region, PPS, given institutes of arts, culture and sports, Implemented in research projects, which were attended by the employees of the department of initial military training, as well as representatives of higher-level institutions and the Decisions of the Teaching Council in the priority areas of its development, as well as in the in compliance with the NIR plan for 2023. The research work carried out in the cafeteria provides full compliance with the national policy in the field of education, science and innovative development.

The main tasks of the «6B01401 - Primary military training» are: preparation of report documents (standards) for specialized accreditation of educational programs in "6v01401 – Initial military training",» 6v01408 - Initial military training of physical culture"; Preparation of the most topical science, research and pedagogical work within the framework of the unified science problem of the university "Development of non-primary pedagogical education and attraction of pseudo-students to solve the problems of science and methodology. New social and economic conditions in Kazakhstan"; as well as participate in international and republican international research events and introduce the results of the NIR in the academic process.

The main forms of NIR, which are taken to the café for this period, are:

1.Participate in international, republican and scientific and practical conferences of universities held in KazNPU, Abai, other higher education institutions and organizations of the city of Almaty, the Republic of Kazakhstan, the near estuary and further abroad. – 2.

2.The list and preparation for publication of thethesis and report for research and practical conferences, research articles for the collectors of research work, and the publication of the report by the KazNPU.

Preparation for publication of academic and methodological benefits for students.

The number of employees of the cafes, performing research and development in 2023:

Total-16, among which:

- staff-11;
- Added services: 4;
– Heads -1;

The academic potential of the cafeteria (61% of the total number of employees) includes 5 regions of the world. Among those who are 1 doctor (1st soldier, Dzakubakynov B.B.), 4-PhD old teacher (4-pedagogical: YerezhepovT.T., Ospankulov E.E., Seitbekova K.Zh., Tolegenovich N.) has the title 2 - associate professor; 2 candidates of science (1 - medical, 1 biological), as well as 6 masters of pedagogical sciences at the cafeteria (Islyamov B.B., Seitova A.L., Kunai S., Baigaliev A.M., Akhmetova G.B. Nazanova S.A., Mektepbergenov N.).

In the cafeteria, research is carried out on a variety of aspects of the army-pedagogical, psychological, pedagogical and medical-biologic disciplines, aimed at developing the theory of teaching and training in public institutions.

- Assessment of the feasibility study and implementation of research projects, financial institutions of the Republic of Kazakhstan, the level of compliance with their departments of educational programs (ensuring the implementation of each research project in compliance with the order of NSH No116); AP14872123 - Party Management development of the science and innovation potential of the teaching staff of the Inventive University. State registration number: 0122RK00557

Agreement No 235/30-22-24 - from October 18, 2022; Irn BR21882318 "Kastomization of the system of formation of a web communication culture, digital ethnographers and students in the "on-line community club" are among the participants of liquidations.

The number of implemented domestic projects, financed by KazNPU abyay-3 project.

The number of young people who receive university grants under the program for young people is not

The main research projects financed through the funds of local executive bodies (MIO) or representatives of the business are not.

PpS university participates in NII projects and other research organizations of The Republic of Kazakhstan.

The number of projects and programs within the framework of international cooperation on the basis of international agreements is not.

The research with the use of digital platform-negotiable.

Application of modern research tools in research and development-3.

0123rki0160-technology of development of control and control materials when assessing students' consciousness in the conditions of hybrid learning

2.The appeal of future teachers of primary education to the national value through the creation of a mobile education environment

3. Synthesis and physico-chemical content of mixed new chromite-manganites

- New technologies, the development of new learning techniques are not.
- The level of contribution of young people to research projects is not.
- Realized PPS and training start-up projects are not.
- Share of postdoctoral students and professors on the cafeteria-Ospankulov E.E. postdoctoral professor;
- The number of patents and copyright evidence received within the framework of NIR PPS-5;
- Scholarshipholders and state scholarshipholders; no.
- "The Best Study Associate", "The Best Universities" in 2023

teachers" titles " O " - no;

- Winners of international and/or state premiums in the region of the laureate of the title of laureate of the title - no;
- The cafeteria Of academic laboratories in the Department is not dredging;
- Modern equipment for research in the report year

the exception;

The operation of equipment of national collective laboratories and engineering laboratories is not carried out in the laboratories.

The university held a number of events on image policy. In order to improve the university's image policy in 2023, the task of increasing the results of research work, which in figures has the following indicators:

1) In a variety of sources, 15 (in 2023 – 15) were published, among which:

-In the journals indexed also on the basis of Skopus-6

- in the journals of the Presented NN RK-3;
- In the countries of distant abroad- no
- In the country near abroad-2
- In other magazines of the Republic of Kazakhstan-4.

2. Nanometric indicators of PPS:

In 2023, the results of the "initial military training" of the Military Training Department were summed up by the results of the research activities of the members of the cafes for research purposes. The department of "initial training", which has a practical focus, is currently focusing on its own theorical research potential.

Following the results of 2023, the following results were summed up:

- vice-minister of registration of 5-aw;
- in the nearnext foreign-2 completed Article 2;
- Article 3 of the Journal shall be published in the journals of the FGBOV VO "NSC RK 3";
- In the journals with impact - factor (Skopus) - 6 articles published 6 articles;
- Number of minted monographs, textbooks and textbooks - methodological benefits-1.

In general, it is worth noting that practically all tasks, which are set by the staff of the cafes, are carried out.

3. The line of international and republican research cooperation:

In 2023, the first military training courses of the 2nd teaching unit were held. It is obvious that the training courses are aimed at improving the sphere of education for every teacher and necessary for the process of learning the necessary skills.

4. Research activity of a student, undergraduate, doctoral student:

Primary military training students of the department of primary military training during their diploma work with foreign organizations, in particular, books, museums, use the necessary materials for the preparation of diploma work. Thus, information technologies in modern education, in the online mode, are used by bibs. The department also works with foreign, internal organizations on graduate work. During the implementation of diploma work, scientific research and articles, scientific work seminars are held with scientific leaders and teachers, organized cafeterias.

KazNPU. Ahaya, head of the department of training, held the 78th conference of students and undergraduates on the section "Theory and the methodology of the initial preparation" in which 11 students took part and spoke with the report. According to the results of the conference:

1st place Duisenbay Adil Aidynovna - student of 4 courses, 6v01408 - Initial military training and physical culture "specialties of protecting the healthy of the military".

Head of science: n.m., community, i.o. professor, Sauylbek Taukeyovich

2nd place - *Iztileuova Aikena Moldashbekovna* - 4 courses student, 6v01408-Initial military training physical culture »psychological aspects of the primary military training and disciplines of physical culture and sports". The head of the study: A. L. Seitova**.** - p.m.n., st. p

2nd place - *Ospanov Batyrzhan* Nurbolovich-student of 4 courses, 6v01408 -initial military training and physical culture "classification and type of volleyball".

Head of the department: *T.T. Yerezhepov***.** - PhD., old-timer

3rd place - *Bulat Rustembekovich* - student of 4 courses, 6v01408- Initial military training and physical culture "Effective methods of preparing the basics of safety in school".

Head of the Department of Education: *R.Zh.Naribai*, associate professor.

3rd place - *Rashid Shahmina Nuridinovna* - student of 4 courses, 6v01408 - Initial military training "Improving physical education of young people". Head of the Department of Education: Islyamov B.B., n.m., St.

3rd place - Student Serzhan Bakhtybekovich Konysbay in 4 courses, 6v01408 - Initial military training and physical culture "Methodology of training of building preparation".

The nomination is a good reporter. The Sabber- Jakupov Arman Yerenovich-Student 4 course, 6v01408-Initial training and "physical culture" introduction with the students of the starting classes on the basis of road safety".

Head of the Department of Education: R.Zh.Naribai, associate professor.

The nomination is a good reporter. Diploma-Koshkinbaeva Dinara-student of 3 courses 6v01408-Initial military training and physical culture «Topical problems of physical culture in 21 st century». Scientific head: N. Tulegenovich**.** - m.p.n., st.

Completion

In general, the results of the calendar year, it is worth noting that practically all the tasks laid before the cafeteria have been fulfilled. In addition, despite the significant activity of scientific and research work, particularly the participation of teachers and students of the cafeteria in scientific and practical and scientific and theorological conferences and speeches, In preparation for training and teaching and methodological benefits, it is necessary to remain on the unscrupulated and some problems, eliminating and solving the problems that will allow them to get acquainted with the research and research work of the department. quality level.

As a matter of concept, the number of PPS cafes was reduced.

In addition, the analysis of the members of the cafeteria in the NIR, the subjects of scientific activity, it turns out that about 50% of these works are systematic employment of these categories (Naribay R.Zh., the oldest teachers N. Tulegenovich and E.E. Ospankulov, Dzhakubakinov B.B.,). At the same time, the ineffective functional ity of the teachers is a non-profit participation in the study. The service will last up to 20% of the time. The effectiveness of the science work of the faculty of the cafes in this direction. A number of employees will receive constant scientific attention, many of which are periodically engaged in scientific work (Ospankulov E.E. Islyamov B.B., Tulegenovich N., Kunai S.).

The analysis of the state of nIR at the department of the first training institute of arts, culture and sports will allow to determine the next priority areas of research activity for 2023.

1.Development of fundamental research in the Armistice, other armies and service formations of the Republic of Kazakhstan, in order to study the variety of activities and processes in the field of training of young people to the service, transferring the melodic theorems, treating them on the basis of the methodology of applied disciplines. With this purpose, develop a basic textbook on specialty 6b01401 – Initial training, 6B01408 – Initial training and physical culture".

2.Participate in the development and examination of projects of normative documents on the issues of specialization of the head of the higher educational institutions of the Republic of Kazakhstan.

3.Implementation of applied scientific research in the interests of the youth of the patriotic education of young people, as well as research aimed at improving the specialization of the content of training in the direction of activity of the department.

4.Carrying out research on disciplinary and interdisciplinary problems in the interest of ensuring the process of preparing skilled specialties Experts and development of educational and methodological documents for the preparation of highly skilled teaching staff (working curriculum, curriculum, basic textbooks, textbooks and methodological sets).

5.Introduction of students to research work, All-round development of their personal potential, the formation of a variety of personality characteristics, motivation for research and teaching activities.
