Protocol No. 8 of " 14 " March 2024
Head of the Department _____ Simtikov Zh. K.

Educational programs general information:
Academic Degree: Doctor of Philosophy (PhD) in Educational Science
program "8D03104-Political Science"
Education language: Kazakh, Russian
Form of study: full-time
Duration of education: 3 years
Amount of credits: 180

1. Analytical justification of the program. Information about the educational program

The purpose of the educational program подготовка докторовis to train Ph.D. students in the educational program "8D03104-Political Science" who possess in-depth theoretical knowledge, critical thinking, and political culture in accordance with high standards in a competitive professional environment, have a solid civic position, and are able to solve modern managerial and scientific problems.

EP planning mechanisms:

The following planning mechanisms are used in the management of educational programs. At the level of long-term planning, common priority areas and strategic goals for the development of all educational programs are highlighted.

1. Long-term planning documents include the Development Program of the Kazakh National Pedagogical University named after Abai (2023-2029). At the university level, short-term planning is represented by the goals of KazNPU named after Abai in the field of quality, work plans of the Academic Council of the Faculty of History and Law and the Department of Political Science and Socio-Philosophical Disciplines, individual plans of teaching staff.

1. Development of the EP in accordance with the methodological requirements for the form and content of the EP.
2. Coordination of the purpose and objectives of the EP with the main regulatory documents of the Republic of Kazakhstan in the field of education, orders of the Ministry of Science and Higher Education of the Republic of Kazakhstan, the mission, the strategic plan of the university, the institute, the comprehensive plan of the department and, in general, with the trends in the development of education, culture and art.
3. Coordination of the planned activities in the plan for the development of the EP with the EMS of KazNPU named after Abai.
4. Studying the demand for the specialty by employees, taking into account their recommendations in the development of the EP, preparing a base of practices for the implementation of the EP.

2. The main goals and objectives of the development plan, indicating the terms and stages of its development:

The goal of EP 8D03104 – Political Science: is to train PhD students with fundamental knowledge in the field of political science, qualified specialists who are ready for continuous professional growth, in accordance with the highest academic standards in a competitive scientific and educational environment.

EP tasks:

apply scientific abstractions that characterize general and specific properties of political science research methods; classify and demonstrate critical thinking skills;

analyze and generalize features of political processes development; show a creative approach to finding the necessary information;

contribute with your own original research worthy of publication at the national or international level; illustrating academic writing skills;

determine the basic principles and methods of political analysis of specific socio-political problems, put forward independent hypotheses on the regulation of various political processes;

synthesize information about political events to set goals, develop strategies and tactics for regulation; plan the best ways to resolve them;

analyze and demonstrate the main directions of modern domestic and internationalpolitical science; organize research activities on key issues while respecting the culture of academic integrity;

apply practical skills in conducting scientific discussions, implement their political positions on the basis of scientific arguments;

critically evaluate the foundations of scientific analysis of political processes, forecasting for the implementation of optimal management decisions; generate innovative ideas in the field of interaction of political science.

3. Main risks of the EP

Risk	Possible consequences	Mechanisms and management measures
Small number of state grants in recent years	Reduction of the contingent (decrease in the number of students)	Developing new programs that correspond to the level of development of modern political science education
Small share of academic mobility of teaching staff	Decrease and declines in the quality of education	Participation of the teaching staff in academic mobility programs
Economic crisis	Reduced solvency	Providing the possibility of partial tuition fees, motivation to continue studying
