1. Analytical justification of the program. Information about the educational program

The purpose of the educational program is to train master's degree political scientists with advanced theoretical knowledge, critical thinking, and political culture in accordance with high standards in a competitive professional environment, who have a civic position and are able to solve modern managerial and scientific problems.

EPs planning mechanisms:

The following planning mechanisms are used in the management of educational programs. At the level of long-term planning, common priority areas and strategic goals for the development of all educational programs are highlighted.

Long-term planning documents include the Development Program of the Kazakh National Pedagogical University named after Abai (2023-2029). At the university level, short-term planning is represented by the goals of KazNPU named after Abai in the field of quality, work plans of the Academic Council of the Faculty of History and Law and the Department of Political Science and Socio-Philosophical Disciplines, individual plans of teaching staff.

Development of the EP in accordance with the methodological requirements for the form and content of the EP.

Coordination of the purpose and objectives of the EP with the main regulatory documents of the Republic of Kazakhstan in the field of education, orders of the Ministry of Science and Higher Education of the Republic of Kazakhstan, the mission, the strategic plan of the university, the institute, the comprehensive plan of the department and, in general, with the trends in the development of education, culture and art.

Coordination of the planned activities in the plan for the development of the EP with the EMS of KazNPU named after Abai.

Studying the demand for the specialty by employees, taking into account their recommendations in the development of the EP, preparing a base of practices for the implementation of the EP.

2. The main goals and objectives of the development plan, indicating the terms and stages of its development:

The purpose of EP 7M03104 - Political Science: training of masters of political science with in-depth theoretical knowledge, critical thinking, political culture in accordance with high standards in a competitive professional environment, having a civic position, able to solve modern management and scientific problems.

EP tasks:

- providing high-quality professional training of future specialists inthe field of political knowledge in accordance with the state order of the society and

international education standards;

- formation of a set of professional competencies for future political scientists: professional and social responsibility, oratorical skills, ability to defend their position, sociability and ability to conduct a dialogue, scientifically based political views.
- the development of future political scientists: high moral qualities, analytical type of thinking, legal literacy, multilingualism and communication skills, proficiency in the basics of free thinking and democracy.

3. Main risks of the EP

Risk	**Possible consequences**	**Mechanisms and management measures**
Small number of state grants in recent years	Reduction of the contingent (decrease in the number of students)	Developing new programs that correspond to the level of development of modern sociological education
Small share of academic mobility of teaching staff	Decrease and declines in the quality of education	Participation of the teaching staff in academic mobility programs
Economic crisis	Reduced solvency	Providing the possibility of partial tuition fees, motivation to continue studying

Development objectives of the EP:

#	**Name of the task**	**Deadline**	**Events**	**Risks**
1	Ensuring high-quality professional training of future political scientists in accordance with the state order of the society and international education standards	During the entire period of study	Updating the EP in accordance with international and domestic standards, the introduction of new disciplines and, accordingly, the development of educational and methodological manuals for new disciplines	Reducing the contingent
